The Italian Trade Agency (ICE) is the public body entrusted with promoting trade, business opportunities and industrial cooperation between Italian and foreign companies, enhancing economic and commercial relationships abroad, marketing Italian goods and services internationally. It further promotes the "Made in Italy" image around the world, and Italy itself as a destination for foreign investments.

With headquarters in Rome, ICE guarantees global support to Italian companies through its network of 79 branch offices worldwide.

The audiovisual office of the Italian Trade Agency (ICE) is engaged in:

- promoting the internationalization of the Italian audiovisual industry and is committed to growing the value of Italian film exports, supporting the presence of Italian films and TV products at festivals and markets such as Cannes International Film Festival, Berlin International Film Festival, Toronto International Film Festival, MipTV and Mipcom, MIFA among others;
- supporting the Italian Film Commissions in attracting film and TV inward investment, and in promoting Italy as a film making destination, and the Italian technical industries as partner of choice;
- fostering co-production projects by helping to connect Italian film makers (producers, writers, directors) with international counterparts;
- helping Italian film and Tv festivals to grow internationally by inviting to Italy buyers, producers, broadcasters, commissioning editors and other foreign representatives of the audiovisual sector.

ICE works for the promotion of the Italian audiovisual industry in close connection with ANICA (National Association of Italian cinematographic, audiovisual and multimedia industry), Istituto Luce-Cinecittà, APT (Association of Italian TV producers), Doc/It (Association of Italian Documentary Producers), and with the Italian Film Commissions.

Through its engagement in the internationalization of the Italian audiovisual sector, ICE also promotes worldwide the "Made in Italy" image and the Italian life-style, indirectly contributing to the development of other important Italian production sectors (tourism, food, fashion, furniture, culture). More recently ICE has open up its activity to the promotion of the Italian videogame industry in cooperation with IIDEA (Italian Interactive Digital Entertainment Association – [www.iideassociation.com](http://www.iideassociation.com)) considering videogames as a new form of artistic expression in itself as well as another possible passage in the exploitation of a film rights.

ENANIMATION is active on the audiovisual market since 2003; it deals with:

- National and international production and co-production of audiovisual materials
- Their national and international distribution
- Their licensing and merchandising exploitation

Enanimation is an independent limited liability production company and plays an active role from a creative and financial point of view. The company has a lean and efficient manufacturing, it deals with research and evaluation of new projects, selection and development of new co-productions and distributions. The skills of Enanimation team range from animation production to live action TV series, web series and movies. Its artists are able to work on any part of the production chain, from scratch to the final product, from screenplay to 3D animation, from shooting to the creation of VFX effects and sound-video editing. Competence, reliability and versatility are the strong points of Enanimation.

Mondo TV was founded in 1985. Its core business involves the production and distribution of high-quality franchises, both animated and live action. Its business model is strongly focused on co-productions with partners around the world. Mondo TV also owns one of Europe's largest animation libraries. Its sister companies are Mondo TV France and Mondo TV Suisse. Today the Mondo TV Group as a whole brings together production, distribution, licensing & merchandising, publishing, digital media, marketing and communication and promotion in a 360° approach to property management that addresses all opportunities across a large number of media and business channels.

Panebarco is an Italian production company with a strong expertise in developing and realizing cartoons and animated stories, visual effects and video post-production. We can manage the entire lifecycle of a 2D and 3D animated production, from the very first concept to the final release.

"Caramelle" (2022), is our first independent production. At the moment we are developing the short movie Marta and Death and developing the TV series for kids 6-11 #NostoppingNora, for which we are looking for co-producers, broadcasters and investors. Meanwhile we have been involved as external service in ARF, a 2D animated feature film produced by Genoma in collaboration with Margutta Studios.

CEO/Executive Producer  
production.rigotz@gmail.com

Rigotz Stories is a writing agency modeled on the demands of the contemporary media industry. Since 2018 it has entered the international market by collaborating with some of the most relevant companies of the business such as Italian broadcaster Rai and production companies such as Minerva Pictures, MondoTV Italy/France/Iberoamerica, MoviMenti, Enanimation, T-Rex Digimation, Atlantyca Entertainment and Red Monk/Superprod Group. By regularly taking part in all major international show business markets we have had the opportunity to scout and recruit a team of scriptwriters and authors coming from a variety of different backgrounds of the entertainment and writing industries. We can therefore offer a wide range of services in collaboration with production companies, animation studios and publishing houses, as well as communication agencies and toy companies. We are a true creative factory. Our business ranges from selecting and developing original scripts for cinema and television to creating narrative content and IPs on commission. We also coordinate writers' rooms and offer experts of the business for production consultations on animation projects, as well as handling the entire production pipelines for their executive production.
